Experience

Jul 2020 - Apr 2021

CollegeTips.in | Pune

Social Media Marketing Specialist

This experience with CollegeTips was an amazing journey in the world of social media. It brought new prospective to my creative brain and pushed my limits of creation. Audience engagement, Audience segmentation and target achievement were few skills I kneeling worked on.

Jun 2022 - Present

Bajaj FinServ Limited | Pune

Project Manager Intern

My time in BFL gave in exposure to different roles and responsibilities of PMO, as I was assigned some sort of work in every corner of project management. I carved my skills of Time management, Strategic Thinking, Business Management, Task estimation. This opportunity also made me acquaint with skills like comprehensive documentation, Progressive Planning, People Management. I also sharpen my skills of Communication and Presentation. I grew in my Personality.

Projects

Flappy Bird Game

Apr 2022

Flappy Bird is a game build using Unity and C # scripting. It was developed for Entertainment purpose. Project was a replica of the existing Flappy Bird game hence named after it.

Music Player

Mar-Apr 2022

Sanedo music player is an application developed using Android Studio in JAVA. Key Feature of this application is you can set an alarm for your songs to stop when you sleep with you're headphone on. With integration to database it fetches local as well as internet song files.
